

S39 BARSYSTEM *MilkPs*

C4ACBE9I1999A

€ 5.510,00

User friendly superautomatic espresso and cappuccino machine.

Equipped with the patented Smart Boiler technology, which significantly boosts steam and hot water capacity (approx. +30%).

Equipped with the ThermoDrive, an easily adjustable group thermal balancing system.

Cappuccino System for one-step cappuccino and latté, equipped with the exclusive Milk Precision System (MilkPS), thanks to which you can: obtain a consistent in-the cup milk dose; customize milk temperature for each selection (patented); prepare stratified beverages; place the fridge under the counter; assure ideal hygiene conditions by automatically emptying the milk circuit at the end of each delivery cycle.

1 steam wand.

1 hot water wand (dosed delivery).

“Jug facility” and “Turbo” functions.

Water by-pass, a special device to deliver well-balanced in taste and aroma long coffee.
